

*Report from the Ockbrook and Borrowash Heritage Society.*

The Society is now a working group whose aims and objectives remain the same, but who do not hold regular meetings with speakers due to the expense involved.

Work on the research for the Ockbrook 1840 picture is at the moment suspended due to the virus situation, but as soon as normal life can resume, we shall quickly complete it. There is only a small amount still to do. We are still, however, well short of the required funding, having received only 50% of what we expected to receive in last year's allocation.

Our extensive archive is still in various temporary storage places, and we are looking for a permanent home. We plan to move to another larger but still temporary space in the Moravian Sunday School building where all the material can be kept in one place.

Margaret Barker

Chairman.
